

Cesar Harada
Director
MakerBay Ltd and Scoutbots Ltd

Cesar Harada (32) is a French-Japanese environmentalist, inventor and entrepreneur based in Hong Kong. CEO of MakerBay (Hong Kong MakerSpace for Social and Environmental Impact), Scoutbots and Protei INC (Ocean Robotics). Cesar is dedicating his life to explore and protect the ocean with open technologies. Protei is a shape-shifting sailing robot, a wind-powered maritime drone that is remotely controlled or automated that will collect ocean data or transport clean-up equipment. Cesar is a Former MIT project leader, TED Senior Fellow, GOOD 100, IBM Figure of Progress, Unreasonable at Sea Fellow, Shuttleworth foundation and Ocean Exchange grantee. Cesar won the Ars Electronica Golden Nica [NEXT IDEA] with his Master graduation project from the Royal College of Arts, London. Cesar has been teaching Masters at the Goldsmiths University of London, Versailles architecture School in France and lectured around the world. Cesar believes that nature, human and technology can thrive in harmony.
