

Philip Yuen
CTO & Head of Special Projects
Tink Labs

As the CTO of handy, Phil leads the Engineering and Development Team and is responsible for the product development efforts at handy. Having been with handy since its inception, Phil brings a wealth of technology and entrepreneurship experience to his role. Part of the Y-Combinator First Batch in 2006, Phil founded and served as the CEO of TextPayMe, a mobile payment system which was eventually acquired by Amazon and became Amazon Payments. In 2011, Phil founded CupidsPlay, a social gaming site which he later sold to Zynga. Phil began his professional career at Microsoft after completing his Bachelor's and Master's degrees in Computer Science and Mathematics at Cornell University. Phil holds 19 patents around mobile payments, transactional security and authorization services.
