

Jason Chiu
Founder & CEO, Cherrypicks

Jason is the founder and CEO of cherrypicks, a regional leader in mobile technology and eCommerce specializing in smart city, augmented reality, artificial intelligence, eWallet and location intelligence. Jason is an industry icon in Hong Kong well known for his successful entrepreneurial experience in mobile innovation. With disruptive Online-to-Offline (O2O) solutions as well as patent-pending products and technology inventions, cherrypicks has represented Hong Kong and China in many world stages and won over 100 local and international awards. The early entrepreneurial journey of the company was also featured as a Harvard Business School case study (#N9-807-106). cherrypicks' solution business and cherrypicks alpha, another startup spun off with the company's product business, were strategically merged with NetDragon (HKSE:777) in 2014 and 2016 respectively. Apart from leading both entities, Jason is also a mentor and angel investor for a number of startups, incubators and co-working spaces to give back to startups in Hong Kong and Silicon Valley.
