**Subject** : Hong Kong Enterprises Fighting against the COVID-19 Outbreak

Dear all,

Under the worldwide outbreak of COVID-19, talents from all walks of life are paying great efforts to come up with ways of combating the challenges. We have then collected some stories which may be of your interest. These innovative Hong Kong companies helped to control and prevent the pandemic, some with successful and interesting stories to share:

- Developed by HKUST, the smart fever screening system is deployed at border points to identify people with COVID-19 even if they are in a crowd or wearing a face mask ([read more](#))
- Hong Kong and Shenzhen firms join global effort to meet the demand for COVID-19 test kits ([read more](#))
- Hong Kong Polytechnic University has designed reusable face shield to be mass-produced for public use ([read more](#))
- MTR Corporation deploys robots for deep cleaning operations ([read more](#))
- Local start-up developed epidemic prevention robot automatically blocks people with fever ([read more](#))
- Researchers at HKU join US tech start-up to conduct a trial to remotely monitor COVID-19 patients and others in quarantine centres ([read more](#))

Please feel free to share the stories with your fellow members. Let's stay strong and continue to support each other to prevail in this challenging period!

Best regards,

Irene Hau  
Federation Secretary
